An Accurate Boy.

There was a young man once in the office of a Western railway station. He was occupying a position that four hundred boys in that city would have wished to get. It was honorable, and it paid well, besides being in the line of promotion. How did he get it? Not by having a rich father, for he was the son of a laborer. The secret was, his beautiful accuracy. He began as an errand boy, and did his work accurately. His letters were used in improving his writing and arithmetic. After a time he learned to telegraph. At each step his employer commended his accuracy, and relied on what he did because he was just right.

It is now announced on the authority of that "elementary physics" which is not healthy to run before eight o'clock in the morning. This applies only to men. Women can rise at seven and fight the heat as here-to-for.

The meanest man we know of is the man who promised his little girl, Christmas present, and talked about it with the child until he had her expectations raised to the highest pitch, and then gave her on Christmas morning, a patent medicine sash and an old second-hand toothbrush, with which he desired her to blow soap-bubbles.

To the Lead Pipe. One of the pipes should be enlarged with a large instrument, and then scraped perfectly bright; the other end should be slightly constricted, and slightly scraped; after explaining the small within the large, and fitting the heavy with solder, it may be made very strong by winding a rag made of seaweed round the pipe immediately below the joint, and pouring on melted solder, which should be smothered over with a soldering iron.

Grand Trunk Time Table.

For the information of the public we publish the time of departure of trains from the Belleville station of the Grand Trunk Railway, as arranged under the new time table, which came into effect to-day:

We all consider how the unbroken of strength and power, but how few are aware that it is this same element in the system that gives it strength and vigor, and that a deficiency of it causes weakness and debility. The Peruvian Syrup, a potent of iron, is prepared expressly to supply this vitalizing element.

A Lassa FEVER would not contain the name of testimony which has accumulated in the case of Dr. Walker's Balm of Wild Cherry as a safe, reliable, and reliable remedy in the treatment of all cases of Lassa FEVER. Many of the cases are truly wonderful.

The "Way" to a healthy mind is a healthy body. Dr. Walker's Balm of Wild Cherry, a potent of iron, is prepared expressly to supply this vitalizing element.

ASTHMATIC BRONCHITIS CURED BY THE SYRUP.
ST. JOHN, N. S., 11th August, 1898.
Dr. J. Walker's Balm of Wild Cherry. I consider it my duty to inform you of the great relief I have received from the use of your Compound Syrup of Hypophosphites.

For the last five years, a great sufferer from Bronchitis and Asthma, at times for weeks I could neither sleep nor take any nourishment of consequence, and during this suffering intensely. I have had, at different times, the advice of twenty-two physicians, none of whom could do me any good.

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made from the native herbs found in the Sierra Nevada mountains of California. The medicinal properties of the herbs are extracted without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of VINEGAR BITTERS?"

Your answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Expeller of the system. Never before in the history of the world has a medicine been compounded, presenting the remarkable qualities of VINEGAR BITTERS in healing the risk of every disease man is heir to. They are a gentle Purgative as well as a Tonic, and a powerful Agent in the treatment of the Liver and Visceral Organs, it is highly recommended.

The properties of Dr. Walker's VINEGAR BITTERS are Astringent, Diaphoretic, Carminative, Nervine, Laxative, Diuretic, Sedative, Counter-Irritant, Sulfuric, Alterative, and Anti-Bilious.

The Most Wonderful Invention
OF THE AGE.

J. MOSES' Electro-Galvanic, Pat. June 24, 1868

ATACHED to these patented Spectacles are two scientifically constructed Galvanic Batteries, which, when worn, drawing through the nerves of the head a slow and continuous current of Electricity, vitalizing and giving healthy action to the benighted system of those parts, absolutely and permanently cured. Partial Paralysis of the Optic Nerve, Weak or Diseased Vision, Neuralgia of the Head or Face, Nervous Affections in the Muscles of the face, Numbness to the head, Loss of Mental Energy, and all the various Diseases, arising from a depression of the system, and a general debility, contributing in a most astonishing degree to the cure of the Eye, and to the restoration of the soft and supple action of Electricity.

For the cure of the eye, the eye quacks, that set all sights, and with glasses for those not cured, with means of the sense manufacture, to put all sights, and with glasses for those not cured, sending spectacles to read with, but deriving the benefits to be derived from wearing the Batteries, and the Spectacles, and the Batteries only of the

Bank Accommodation in New York.
New York, Nov. 10.—The Tribune says there is room for considerable doubt as to the election of Moore, Nichols and Jackson, the Democratic candidate for Controller and Canal Commissioner.
A Boston special says the reports of business from different sections in the Eastern States indicate a general cheering up. Several concerns which a few weeks ago shut down, partially or wholly are now reported as working nearer to old basis and exaggerated reports are corrected.
The Press says notwithstanding the adverse events of the past week, the situation of the money market in respect to the bank movement and the issue of relief for accommodation to merchants, is very greatly improved.

WISTAR'S BALSAM
OF
WILD CHERRY

THE GREAT REMEDY FOR
CONSUMPTION
which can be cured by a
timely resort to this stand-
ard preparation, as has been
proved by the hundreds of
testimonials received by the
proprietors. It is acknowl-
edged by many prominent
physicians to be the most
reliable preparation ever in-
troduced for the relief and
cure of all Lung complaints,
and is offered to the public,
as mentioned by the experience
of over forty years. When
resorted to in season it sel-
dom fails to effect a speedy
cure in the most severe
cases of Coughs, Bronchitis,
Croup, Whooping Cough,
Influenza, Asthma, Colds,
Sore Throat, Pains or
Soreness in the Chest and Side,
Liver Complaint, Bleeding
at the Lungs, &c. Wistar's
Balsam does not dry up a
Cough, and leave the cause
behind, as is the case with
most preparations, but it
softens and cleanses the
lungs, and allays irritation,
thus removing the cause of
the complaint.

PREPARED BY
J. H. FOWLER & SONS, Boston, Mass.
And sold by Druggists and Dealers generally.

EVERY
Inventor, Mechanic, Manufacturer,
Builder, Engineer, etc., etc.

Daily Intelligencer.

BELLEVILLE, THURSDAY, NOV. 12.

GOVERNMENT CROWNED.—The Hon. JOHN CRAWFORD was sworn in as Lieut. Governor of Ontario on Wednesday, November 12th, by Chief Justice Dwyer, after which his Honor attended his guests at luncheon.

Went Toronto.—At a meeting of the Liberal Association in West Toronto, Sir John A. Macdonald was nominated as the candidate of the party to run for West Toronto in place of the Hon. John CRAWFORD, appointed Governor.

CORRESPONDENCE.—We give to-day a short letter from Mr. P. Clapp, in reply to a paper regularly sent to him by Mr. Clapp, who has another long letter from the same gentleman upon the subject of the Grand Junction Stock, which is under consideration.

A DARING OUTRAGE.—A daring outrage was committed in New Hamburg on Sunday night. About nine o'clock five men used the residence of Valentine Smith, a farmer. Two of the men entered Smith's daughter, a girl of twenty, forced her into a carriage in waiting, and drove her off while the other three men, threatening to murder him if he did not comply, entered the house and carried off the property.

SHIPMENT OF CHEESE.—The largest shipment of cheese that ever took place from this point in any one day was on the 12th inst., when it required twenty-one cars to hold the cheese shipped to England by Mr. Watkins. These 31 cars would average about 20,000 lbs. each, or 620,000 lbs., altogether making the value of the year's shipment, calculated at 12¢ per lb., over \$65,400. This gives some idea of the value of Cheese factories in this locality.

FURNERAL OF D. McDONALD.—The remains of the late Doctor McDONALD, Esq., of Belleville, were on Wednesday last followed to their last resting place by a large concourse of people from all parts of the County. He was buried in the cemetery in Belleville, where rest the early pioneers of the County. The religious services were performed by the Rev. Messrs. Buchan and Bell, the latter of whom paid a well merited tribute to the merits of the dead. Mr. McDONALD had made for himself a large number of personal friends, and will be sadly missed in the Village to which he lived and prospered.

DEATH'S YOUNG AMERICA.—On December 1st of Ontario's coroner, with other interesting features for the present. Some rare attractions are promised for the New Year, among which is a beautiful Chromo and a series of graphic cartoons illustrating the evils of intemperance, with sketches by Dr. Demos. These attractions are to be offered at \$1.00 per seat, with a beautiful Oil Chromo to each subscriber as a premium. Address, W. JENNINGS DEMOS, 888 Broadway, N. Y.

BROWNE'S MONTHLY.—The December No. of Browne's Monthly Magazine is sparkling with Holiday Material, Holiday Fashions, Holiday Stories, Holiday Poems, etc., etc. But the most attractive of the Holiday features is the marvelous array of the large and truly beautiful Oil Chromo, "The Old Oak Bunker," to be sent to each subscriber as a premium. The "Old Oak Bunker" is 17 x 24 inches in size, retailed at \$1.00, and the best and most popular Chromo ever published, and yet is presented to each \$2.00 subscriber for the year 1874. This throws all other premiums in the shade. What next? Address, W. JENNINGS DEMOS, 888 Broadway, New York.

BUTTER.—Belleville is getting to be an important point for shipment of Butter, as well as Cheese, to the old country. For some time past Mr. J. H. Clark has been receiving considerable attention to this business, and now is the principal shipper of this article. During the present season he has averaged one car a week, which has been sent direct to Liverpool. This butter averages 100 lbs. per cwt.—to-day it is worth 10¢—would make the value of each week's shipment over \$5,000. It is very gratifying to know in this connection that the quality of butter has very much improved this year. Last year thousands of pounds purchased here had to be sold in Montreal as low as 7 cents per pound, and it was found that the eyes of better makers in the importers, paying more attention to the quality they produced, it costs no more to make a pound of good butter than it does bad, and the result of last year's drive calling

Induction of a Minister.

The ceremony of inducing Rev. Mr. McLean, of Fort Hope, to the pastorate of the Methodist Church, took place last evening in this Church. The Rev. Dr. Hodgson, Principal of Queen's College, Kingston, conducted the service, and a large number of the congregation were present. The usual questions were then proposed to the Minister, who stated his reasons for accepting the call, and his response, Principal Hodgson closing this part of the ceremony by extending the right hand of fellowship to the new Minister. The ceremony was presided over by the Rev. Dr. Hodgson, and was a most interesting and profitable one.

Biography of Ministers.

The Globe has been giving its readers a series of biographies of Ministers, and the series is now being continued by the publication of a series of biographies of the late Ministers of the Crown. These biographies are of great interest and value, and are well worth reading.

The HUNTINGTON RESOLUTIONS CONDEMNED.

SMITHVILLE, NOV. 10.—Mr. J. R. Ryker held a very large and successful meeting at Smithville this evening. Mr. J. R. Ryker discussed the present position of Dominion affairs, and also reviewed the proceedings of the Ontario Government. At the close of the meeting the following resolutions were passed:

Resolved, that it is the opinion of this meeting that we ought to avail ourselves of the opportunity afforded by the present position of affairs to express our views on the subject of the Dominion Government, and to demand that it should be brought into line with the wishes of the people.

Resolved, that it is the opinion of this meeting that the Dominion Government should be brought into line with the wishes of the people, and that it should be brought into line with the wishes of the people.

A KEEF HOUSE PLANTS FROM FREEZING.
A sure method for keeping house plants from freezing, except in the very cold weather, is to let a pall full of water stand on the stand for the plants through the night. The heat given out by the water as it lowers in temperature, is sufficient to protect the plants; in the same manner vegetables and fruit can be kept from freezing in the cellar.

A FARMER'S ICE-HOUSE.
A correspondent of the *Ottumwa* or *Country Gentleman* gives the following timely description of his ice-house, something that every farmer can have and use.

It is a crib ten feet by ten and a half side and eight feet high, and set directly on the surface of the ground; the posts are made of slabs and the sides are of the same nailed on horizontally two or three inches apart. Cost of lumber, \$4; nails, 50 cents; labor done by a term hand. Five or three horse loads of ice filled it. In filling one foot of sawdust was put in, and then a layer of ice one foot from the sides, the sides packed and the middle broken up a little, and as each layer was put in, a little sawdust was put in between the sides and

top was finished rounding, and covered with a foot of sawdust and pine boughs that, to keep the wind from blowing it away and has no roof of any kind. The first of this month there was still sixteen inches of ice left.

In the middle of one end, about one foot from the boards, is a dumb water tank fifteen inches square and ten feet high. Inside of which is a dumb water box a half foot long, fitted up with shavings

THE SEASON FOR FATTENING HOGS

try the experiment that this course is economy. Two pounds can more easily be added to a hog's weight in October or November, before the weather becomes extremely cold, than one in December or January. A part of the corn which is now converted into fat will then be more easily consumed in keeping up the normal heat of the animal.

The office of the *Portland Mail* was robbed on Friday afternoon of a large sum of money. The *Mail* thus describes the circumstances of the robbery: "The bill is paid every Friday afternoon by the cashier, who on this occasion took a check to the Bank in the forenoon, and on returning to the office placed the proceeds in the cash-box, and locked it up in the safe. Half past one he took the box out of the vault, and rested it on a shelf in the office, which is called off from the bank."

the several amounts on the pay list, the office superintendent had just gone on his luncheon, the counter clerk had sent on an errand, and the cashier alone. At this juncture two men presented themselves at the counter on the Street front, while a third entered the private door, and taking his stand stove in the centre of the office, all the cashier first to attend the "gentle" at the counter. This he did, the ap

was clearing his hands to be so cold that the cashier must write out the advertisement he was desirous of placing in the paper. No sooner had the cashier commenced to write, having his back to the inner office, than the man at the desk quietly slipped inside the rails and grabbed the box under his arm ran out of the building the back way into Bay Street, the accomplices bringing their advertisement business to an end so soon as they saw their feet clear out of the room. Directly the cashier

turned round, he suspected what had happened; but the thieves had got too good for him, and the only thing to do was to place the matter in the hands of the police, who are vigorously engaged in prosecuting a search for the guilty parties. The box contained a large amount of money in Provincial ones and twos, and five of the Bank of Toronto, and some negotiable instruments, including a cheque on Toronto, Grey and Bruce Railway, a Post office order from Chippewa. The thieves doubt that the second round

can not doubt that the persons implicated in so daring an outrage were pre-
pared to defend themselves to the utmost, and
the cashier turned his head one mo-
ment sooner, he would probably have
effectually silenced. The following
description of the persons concerned in
the affair:—Of the men at the counter,
was a stout fellow, about 5 ft. 10 in
height, full face, short dark whisk-
ers, prominent blue eyes, aged between 40
and 50, dressed in a dark shooting
coat, the collar was about 5 ft. 11 in. fair

plexion, not so stout, had a round face, lower portion covered with short stubbly hair of a few weeks' growth, wore a black jacket, aged about 37. The tractor of the cash box was of boylike gentle appearance, smooth face, hair about 6 in. 5 in., wore a light drab coat, the lapels edged with a dark material, fanny peckle, age about 34. There is every chance of these worthies being apprehended, and no stone will be left turned to effect their capture.

New York, Nov. 17.—A large and enthusias-

tic meeting of American and Cuban citizens was

held at Broadway Hall to-night, for the purpose

of expressing their views on the late

betraying of the Spanish and the outrage

offered to the American flag. Fully 3,000 people

were present. Hon. William M. Evans pre-

sided. Resolutions were adopted to the effect

that in view of the war for the suppression

of the Cuban rebellion, which has been going

on for five years without any evidence of

success, and that Spanish volunteers have out-

raged the rights and privileges of American

citizens, the people of the United States look

to the great soldier now presiding over their

government, to take the prompt and most de-

cisive action consistent with the dignity and

prestige of the United States.

The following despatch has been made pub-

lic here:

SANTIAGO DE CUBA, Nov. 13.—There have been

no further developments. The man-of-war

'Isabella La Católica,' has arrived here to de-

posit the 'Virginius' in Havana.

The attitude of the authorities dispose of the

'Virginius' as a prisoner in accordance with

international law, and subject on one side to

interference with them.

There have been no more executions, bathe-

trials are proceeding.

British Men of War 'Nimble' is still here. It

is reported that correspondence is going on

between the Captain and Governor Barrios

about the 'Virginius' and other foreign subjects

captured on the 'Virginius.'

There are rumors that an American corvette

from Havana, the 'Albatross,' has been ordered

to the coast of the 'Virginius' from Key West

as they are there.

Secretary Robeson arrived in New York at

midnight to hasten preparations for sea on

the 10th of the Brooklyn navy yard. He said

after what had occurred the United States

must have a great observation on the Cuban

situation.

Afterwards, seeing Sir John in the lobby, Mr. Smith approached him and began to excuse his duplicity. Sir John simply told him that he wanted no explanation; he could get along without such support. He did not rush out into the lobby, he did not threaten and bully, he did not shake his fist in Mr. Smith's face, he did not call him a traitor, he did not threaten to be even with him, he simply declined to listen to his hypocritical explanations.—*London Herald*.

ney, for the country yet believed in the necessity of the Pacific Railway, but an allegation of a crime of which, if true, his opponents are quite as culpable. They charged him with seeking to retain power by bribery, and they tried to defeat him; they charged him with seducing his opponents by the offer of office, and they seduced his friends by promises of office; and they charged him with selling the charter of a railroad to the agent of Americans, and yet they sought and obtained the assistance of agents to accomplish his downfall. *Oshawa Vindicator.*

The *Hamilton Times* give editorial prominence to an extract from the *Char-*

A lady correspondent writes to us to this effect: "The Mackenzie Administration is bringing in a measure providing that we may exercise the franchise, voting by lot, and that they may drop their votes in the post office for the returning officer. We fear if such a law were passed it would be John Younged."

A Canadian in Chicago writes to the *Citizen*, that the result of the great debate was quite a surprise to the people of the city, who are now inclined to look at McMillan as "a clever fellow."

He says he has no doubts there will soon be another change of Ministers when

Dr. Tupper pointed out in his speech at the Ottawa banquet, that Messrs. Cochrane and Ross, two former supporters of John A. Macdonald, and now members of the patent Ottawa coalition, had endeavored to secure positions in the Cabinet. Of Mr. Coffin the *Globe* had said that he deserved such a position by steady support of the late Ministry. And yet, we are told that the new Government is purely Grit. As to Mr. Ross, Dr. Tupper says that "his communications with the Government exhibited him to be no unprincipled—such a thorough, corrupt jobber; the Government were not only obliged to employ him as a member of the Cabinet, but to give him a seat in the Cabinet, but

Templeton, who was on the north-east corner of Fourteenth street and Eighth avenue and was walking rapidly towards them. Mrs. Henry caught hold of Mrs. Templeton but her husband snatched her from Mrs. Henry's grasp, and asked her to return to him. While Templeton was pleading, Mrs. Henry sent one of her daughters back to the house, which is only a few doors from Eighth avenue, for assistance, and sent the other daughter to look for a policeman. A crowd gathered, and while Mrs. Templeton was imploring the bystanders to assist her, and asking her husband to let her go, Officer Gallagher, of the sixteenth precinct, came up. Mrs. Templeton told him that she did not wish to be molested, and asked him to make her husband leave her bed.

Mr. Tolson decided that the quarrel was too complicated a one for him to decide, and determined to take all persons engaged in it to the station-house. Templeton strengthened his case by informing the officer that Mrs. Henry was the keeper of an infamous resort and had abducted his wife. Mr. Templeton agreed to go to the station-house, but implored the officer to look after her husband, as he would shoot her if he found an opportunity. Gallagher with extraordinary stupidity, instead of keeping Templeton in view, appeared to consider Mr. Templeton as the principal culprit, and walked toward Fifteenth street holding her by the left arm. Templeton

to blind the officer further by entreating his wife in the tenderest terms to return to him. The officer was so thrown off his guard that he allowed Templeton to lag behind and approach his wife, who was closely followed by Mrs. Kenny and her daughter Lottie. Opposite the paint store of Silva & Maulin, No. 88 Eighth avenue, Templeton darted up to his wife, whispered something to her, drew a single-barrelled Derringer pistol and fired, the ball passing through Mrs. Templeton's left jaw and the root of the tongue, and lodging in the right jaw. Mrs. Templeton fell into Mrs. Kenny's arms, and as the husband

asked an disarmed him. Mrs. Kenny asked him anxiously what he was doing, and he replied with an oath and an imperative expression that if he had had time he would have shot her too. Mrs. Templeton, who was bleeding profusely from an artery severed by the bullet, was carried into the drug store of Ferdinand Meach, No. 94 Eighth avenue, and from there to her residence, where she was attended by Dr. McCleod, Foot, Sands and Holgate, who pronounced her injuries to be very dangerous. She was placed under the influence of narcotics, and no attempt to remove the ball will be made before Tuesday. Ten

The way to the station-house he said that he was *sorry* for what he had done, and on being arraigned before the sergeant on duty he reiterated his regrets and was locked up. Captain Cherry gave orders that no one should see him. Templeton is about five feet four inches in height, is good looking, and wears light side whiskers and a small mustache. His appearance is not that of a man of violent temper.

VICTORIA.

The steamer *Elmina* arrived in Liverpool on Nov. 1st, with dates from Cape Coast Castle up to October 10th. We take the following interesting particulars from a letter of the correspondent of the *London Standard*, dated Cape Coast Castle, Oct. 9th:—

Sir Garnet Wolseley's energy has fairly commaginated itself to the chiefs, and although it is by no means certain that they will be able to raise an army for us, it is now certain that they will endeavor to the utmost of their power to do so. Those who know them best are the most surprised to find that the king is really, keeping the

The greater portion of the officers who accompanied us with us are leaving with these prisoners, and will, by their presence, show the people that England is in earnest in their liberation.

The departure of some of these officers has, however, been contemplated from the first, owing to the fact that they arrived from Capt. Olver at Cape, by the mail, which came in yesterday morning and a few hours later. The very good to consider what we have heard of other quarters, and it is evident that Capt. Olver is himself strongly convinced of its truth, for

ones, instead of waiting to take on cargo. The Intelligence is that the king of Ashango, hearing that we are about to march on Goma, has sworn the great oath to drive us altogether from his coast, that he has collected every fighting man in his kingdom, and is already seventeen days on his march to Cape Coast. This news would be almost too good to be true, and it will indeed be singular if Coffe Calappa recalls the mistake of Theodore of coming out to fight as in the open instead of trusting to his natural defence, and harassing us upon the march. This town is strong now; in a few days it will be impregnable to an unadvised enemy. In addition to Fort

Williams and Victoria Adams, the freedmen have been thrown up during the last few days upon the other heights, which form a circle round the town. These are now ready to receive their guns, and manned by seamen, or marine artillerymen, will give the Ashantees such a reception that they will never again care about meeting the terrible arms of the white man. No. 174

Systematic Microrepresentation

The organs of the letter-stealers, from the *Globe* down to the *Bellville Courier*, get together to make a case for the letter-stealing, upon a system of misrepresentation of the facts connected with the Pacific Railway enterprise. If there is one statement which they have made and reiterated with united voice and without cessation, it is that "Sir James Macdonald sold the contract to Sir Horace Rutherford." That is the fact. But the Thetford letter-stealer has gone abroad to the people; it has found its way to the very remotest corners of the Dominion; and although contradicted by the House and outside of Parliament, there are many who have not read the evidence taken before the committee.

still believes the falsehood. Now, no man of common sense, no truthful man, who read the evidence, will venture to say that Sir HUGH ALLAN got the contract for construction of the Pacific Railway. JOHN MACDONALD, himself, in his speech of last Thursday night explained exactly the position in which Sir HUGH

"It so happened that by the course of the law, Sir Hugh Allan was prevented from being a contractor at all. We granted a charter to a railway company, with the rectorate of thirteen gentlemen, all having equal rank and station, Sir Hugh being one of them. We made provision that not one of them should be a contractor, directly or indirectly on that road, and when the charter was granted, the youngest man of those thirteen had as much stock as Sir Hugh Allan and as much power and influence. When they said we sold the road, it was an absurdity. We gave the charter to a railway company, and provided that no man in that company should have interest in any one of the roads."

Will any man venture to deny a word of that statement? No one who has a reputation for veracity to lose would tempt it, and if Sir John's statement be true, the assertions of the Grit organs be the reverse.—*Citizen*.

The New Cabinet.

The construction of the new Administration at Ottawa, raises an important question of constitutional law. The principle which lies at the basis of our Parliamentary system is that no member of the House of Commons shall hold any office of profit under the Crown, the law requiring every member accepting such an office to resign his seat. Without the safeguard against corruption and undue influence thus provided, it would be impossible to carry on the Government on our present system. An exception is introduced, however, in favor of the heads of public departments, who are allowed to sit in

in Parliament, though it is certain
will always vote in favor of the Gov-
ernment, &c., in favor of themselves,
the disadvantage of such a state of
things is thought to be more than balanced
by the convenience of having Ministers pre-
sented to Parliament, ready to answer all ques-
tions relating to public business, and to ex-
plain and defend measures which are recom-
mended for adoption by Parliament. That
the English system which we have seen
in Canada. In the United States
other hand, so jealous are they of an
interference with the freedom and in-
dependence of the Legislature that the mem-
bers of the Government are entirely ex-
cluded during their tenure of office, from

either House of Congress. The tor-
ture of the American constitution have ac-
cording to the English principle without ad-
mitting any exceptions. The English act of the
same principle, but allow an exception
in favor of Ministers of the Crown. I
reasons already stated. While we
these reasons to be sufficient to show
the same time be remembered that
only as an exception that Ministers of
the Crown are allowed to sit and vote in
Parliament. The spirit of the constitution
therefore requires that this excep-
tion should be strictly limited to the ne-
cessity out of which it arises, and that the
number of placemen in Parliament should
be restricted to the number actually re-
quired for the transaction of business.

The system attempted to be introduced by the new Government is in violation of this constitutional rule. Mr. and Mrs. Scott, it is announced, are members of the Cabinet without portfolio; they have no public departments to which their assistance is not required to conduct the business of the country, and the presence in the Cabinet is an anomalous interference with the independence of Parliament. To say they are to receive salaries is no answer to the objection. Their seat in the Cabinet with the right to be present at Cabinet councils and to sign Cabinet secrets is a desirable object in itself, and it is not without reason.

attached. The Government have
 by creating two such anomalous offices
 the number may be indefinitely extended.
 There is just as much reason for having
 three members of the Cabinet with
 salary as there is for having two, and
 as much reason for having six as
 three. Once you establish a wrong principle
 of a vicious precedent, the evil has a tendency
 to increase in proportion to the needs
 of the Government. No one doubts
 at the present moment that Mr. Blako and Mr. R. E. Brown
 will be bound to vote for the Mackenzie
 Government on all occasions, as much as
 one were the Minister of Justice and
 another Minister of Public Works, and
 by it may be discovered that the

TOWN AND VICINITY.

The Conversation to-night, under the

auspices of the Young Men's Christian

Association, in Ontario Hall, will be

of a liberal patronage. The cause which

it is designed to aid is a most worthy one,

and we have the assurance that the pro-

ceedings will be of a highly interesting

character.

It is to be hoped that the practice of in-

discriminating among the various contribu-

tors will not be a source of regret to the

benefactors of the cause. The speakers

of the character. Performers may be

guaranteed at the appreciation thus evinced,

but when their address is made, they will

be in many instances ready to do a long

lengthened to such an extent that it is

not to require a large amount of patience.

The success of the evening will depend

on the number of the performers them-

selves, who by simply bowing their ac-

knowledgment in the most successful

performer as not sufficiently graceful to

meet the wishes of the majority of their

audience. Either this should be done

shorter programmes issued.

The annual ball of "Quint" Hook and

Ladder Company will take place in Ontario

Hall to-morrow night. A large number of

tickets have been disposed of, and the

House of Commons, and on the stump a

dozen times. Instead of a state-of-the-

development of policy, we have the old

tale of the Pacific Scandal repeated

with various, and stronger assertions,

because no one was present to contradict

them—another retelling of the ac-

cused of the coalition with the Cabinet—

a defence of the coalition with the Cabinet—

formed. These topics occupy about four

columns and a half of the great speech,

while the remaining half column is devoted

to the "unfolding of the Policy of the

Government," and consists of a policy

measure for what is termed the Indepen-

dence of Parliament; or in other words

the passage of Mr. Blake's little Bill to

prevent Mr. McLean from holding his seat in

the Senate, and at the same time a Bill

to amend the Railway Compensation Bill

to secure what calls party in election,

a measure to which every man in the House

is pledged; and when passed let us hope

it will be no word as to prevent intro-

duction of the "Proton outrage."

Beyond these two points we have no

promise other than a reference to the

consideration of the Insolvency Laws, where-

to that may be, and the Pacific Railway.

It will be interesting to know whether

Mr. McKenna has carried into the Govern-

ment the principles he advocated

while in Opposition upon the question of

the Insolvency Laws. And if so, what

options are to prevail? Are those of

the Government, or are those of the

opposition? It is a question of the

unparalleled proceedings of the present

Government, and the House of Commons,

holding the reins of the Pacific, being

virtually represented by the House of

Commons.

The application of the

Government will again be refused, and

this series of political agitation will result

in the unparalleled proceedings of the

Government, and the House of Commons,

holding the reins of the Pacific, being

virtually represented by the House of

Commons.

The Virginian Affair.

Peace Assured.

Spain Accedes to the U.S. Demands.

New York, Nov. 28.—All the Washington

specialists in the morning journals unite in

announcing that Spain has acceded to our

demands and peace is assured.

The Times dispatch says.—The announce-

ment received from Admiral Polso last

evening, after the adjournment of the

Cabinet meeting, Spain promises to deliver

up the Virginian, the flag and papers, to

return the survivors, and to bring to justice

the Santiago butchers.

The Herald's dispatch, dated 2:30 this

morning, says.—Secretary Fish was in high

spirits at his dwelling, where warm con-

gratulations were passing. During the

evening he shook hands with everybody,

remarking that he was very glad that war

had been averted. Gen. Sherman expressed

great satisfaction at the happy termination

of the negotiations. Sec. Fish was no

doubt that the Spanish Government will

be able to carry out its orders in Cuba.

The Colonial Minister, M. Soler, now in Havana,

will personally see that they are carried

out. The World's dispatch says.—The situation

is peace. It gives among the conditions ac-

cessed, indemnity to the families of such

American citizens who were executed at San-

tiago.

A double headed editorial in the Times

treats of peace as a forgone conclusion, and

praises what it calls the good temper and

sense of Admiral Polso and Sec. Fish in hav-

ing effected it. It says that there can be no

impropriety in mentioning that Admiral

Polso has endeavored by all honorable

means to bring about a peaceful solution,

without forgetting for a moment the claims

of his own country.

MORNING DESPATCHES.

SPAIN.

The Bombardment of Cartagena.

Serious Loss of the Besieged.

Republican Loss Small.

The Insurgents Hoist the Black

Flag.

LONDON, Nov. 28.—Special despatches to

the Times and Standard give particulars of

the bombardment of Cartagena on Wednes-

day. The Arsenal and Barracks were

chief marks for the insurgent's artillery; but

the cathedral and hospital were also struck.

On Friday the theatre, Protestant church and

two other streets were destroyed, and two

hundred persons killed and wounded within

the city. The insurgents have hoisted the

black flag on the forts. At last accounts the

fire around the city was subsiding. The loss

of the batteries has been exceedingly heavy.

The officers of the Foreign Squadron suc-

ceeded in obtaining armistice of four hours

on Friday night.

AMERICAN DESPATCHES.

Howe's Macy & Co's Affair.

The Sprague Estate.

New Volcano in Nevada.

NEW YORK, Nov. 28.—At a meeting of the

creditors of Howe & Macy, it was resolved to

accept the proposition of the firm of paying

60 per cent. to the creditors in the following

manner:—40 per cent. on the 1st of January;

10 per cent. on the 1st of March; the remainder

—10 per cent.—during the remainder of the

year; and that the same be accepted by the

creditors as full payment of their claims.

PROVIDENCE, R. I., Nov. 28.—The Sprague

trust deed was signed last evening by the

Sprague Manufacturing Corporation, and in-

dividual members of the family.

SAN FRANCISCO, Nov. 28.—A despatch to-

night from Eureka, Nevada, states that a vol-

cano has broken out in the Pinto Mountains,

ten miles from that place. Dense volumes of

smoke are issuing from the crater.
